Priorities

- Before anything else, exhaust family sources
- Not just direct line, also collateral lines & even distant lines
- Stimulate memories – show photographs & documents
- Offer to share with others
- Take a digital camera/scanner with you

Family Sources

- Can save time & money
- BDM Certificates
- Family bibles
- Correspondence
- Newspaper cuttings
- Medals, sporting trophies
- Photographs

Don't Reinvent the Wheel

- Has someone already researched the family?
- Check genealogical research directories
- Guild of One Name Studies (GOONS)
- Rootsweb mailing list archives
- Facebook, Genes Reunited, Ancestry, FindMyPast, Lost Cousins, My Heritage, World Connect
- Genealogy blogs

Welcome to LostCousins

Are you serious about researching your family tree? If so, you've come to the right place, because LostCousins is the **ONLY** family history website able to match you with others researching the same ancestors

AUTOMATICALLY, ACCURATELY & CONFIDENTIALLY

Simply enter the relatives on your family tree who were recorded in selected US, Canadian, British, or Irish Censuses - then click the **Search** button.

Your information stays hidden

100% accurate automated matching means that nobody else needs to see your information - yet when you do find a 'lost cousin', you can be certain you're related!

Naturally, achieving such results requires a little effort on your part - but once you've entered your data the rest is automatic, so overall you'll find that the unique LostCousins approach **SAVES** you a lot of time and effort compared to other, less accurate, sites.

Find living relatives and discover more

When you find a 'lost cousin' it's a great opportunity to share family photos and stories that have been passed down the generations - things you'll never find in public records offices and archives. You might even decide to co-operate on future research.

The best genealogy newsletter - and it's FREE!

As a LostCousins member you will be entitled to receive our newsletter, which is full of useful tips and articles to help you knock down 'brick walls' and take your research to a new level. Here's what members say about the newsletter:

"Your letters are so informative especially for those at a brick wall and not sure where to look next."

"Thanks again for the fabulous LostCousins newsletter"

National Family History Month

National Family History Month

August 2014

Past • Present • Future

National Family History Month

Family history and genealogy is one of the most popular hobbies around the world. Family history is the second biggest subject on the web with sites receiving billions of hits per year. There are over 250,000 Australians who are members of family history related organisations so the month has broad appeal across Australia.

National Family History Month is an initiative of AFFHO ([Australasian Federation of Family History Organisations](http://www.austlii.edu.au/au/other/auflii/affho/)). This popular initiative has received broad support from some of Australia's leading government and non government organisations since its introduction in 2006. Originally only a week in August, it was expanded to include the whole month in 2013 to allow greater participation across Australia.

For genealogy and family history societies, archives, libraries etc, a list of 2013 events is [available here](#) for ideas on what to do in 2014. A copy of the 2014 flyer is [available here](#) and it can be used to help promote your own events. Please remember to [add your event](#) to the NFHM web calendar to ensure everyone knows about your events.

The 2014 launch will be in Canberra at the National Archives of Australia who have generously hosted the launch every year since 2006. The launch now moves around Australia and the last two years were in Brisbane and Melbourne respectively.

FreeUKGen is an initiative to help make more high quality primary (or near-primary) records of relevance to UK genealogy conveniently available online, preferably for free, in a coherent, easy to access and search, facility or set of facilities

FreeUKGen aims to provide the tools and support for its member projects (see below) and to do so in a way that makes good use of present knowledge about relevant computer science techniques, e.g. concerning interfaces, databases, data interchange protocols, and system design generally, and which is technically forward-looking.

FreeUKGen encourages large-scale volunteer effort, and makes good use of it, e.g. by reducing duplication of transcription and indexing efforts, and by facilitating widespread access to the information resources that are produced by such efforts.

FreeUKGen sets the standard for other organisations that are engaged in making genealogy resources available.

FreeUKGEN Projects

FreeBMD was the first of the **FreeUKGen** projects to launch. The searchable database first became available in January 1999, some five months after the ONS gave permission for the Project. Mocked at first as being "too big", it has proved all its doubters wrong, as it moves towards its target of completing the complete index at a faster rate than even the early fans thought possible.

We don't know if FreeBMD is the biggest voluntary transcription project ever, but we suspect it might be!

FreeCEN was the second of the **FreeUKGen** projects to come on-line. Transcription started in July 1999, and the online database launched in July 2003.

Since the launch of the search engine, a number of counties have been completed, and transcription is continuing at a rapid rate.

FreeREG was the third of the **FreeUKGen** projects to come on-line. Founded by Rod Neep (of Archive CD Books) in early 1999. The FreeREG search engine went live in September 2006.

FreeREG stands for Free REGisters.

Our objective is to provide free Internet searches of baptism, marriage, and burial records, that have been transcribed from parish and non-conformist registers of the U.K. FreeREG is a companion project to [FreeBMD](#) (a database of the GRO birth, marriage and death indexes from 1837) and [FreeCEN](#) (a database of census information).

We are in need of volunteers willing to transcribe registers, to make their existing transcriptions available on FreeREG or undertake one of the many supporting tasks. (Follow the link to [How to Volunteer](#) for information on how to participate.)

The FreeREG database contains 4,678,103 Marriages, 14,193,183 Baptisms and 9,887,208 Burials. The last update started on Mon 30 Jun 2014 and was completed on Tue 1 Jul 2014.

On Wed 30 Jul 2014 FreeREG users did 23,810 searches. ([Details](#))

Coverage by Parish

Unless stated otherwise, the records have been transcribed from Parish Registers and are listed alphabetically by Parish on this page.

BTs usually contain gaps where loose sheets of paper have not survived.

If you cannot find a particular record, please check with the OPC for the parish, as they may be able to help. The relevant email address can be found by clicking on the parish name.

Please DO NOT link to individual records, as their numbers change when amendments are made to any uploaded files.

Welcome to GSQ

[| Print |](#)

Researching family history has become one of the world's most popular pastimes. The Genealogical Society of Queensland has been helping people find their heritage for over 30 years.

We have Queensland's largest family history reference library and our experienced volunteers can provide advice and assistance on all aspects of genealogy. Our program of classes, workshops and seminars has something for everyone. And our secure online shop allows you to purchase a range of society services and products as well as family history publications and software.

If you are an experienced researcher, or are only starting out on your genealogical journey, GSQ can help you explore your family's heritage.
